- Ongoing support from Bruce Hilton BSc(Hons), Dip.He

IN THIS COURSE

Discussions

You are encouraged to use the discussion forum of the course to interact with me (Bruce) and fellow students. If you get 'stuck' e-mail me direct: bruce@denofprogramming.com or via the Udemy message board.

Media

You will find downloadable Source Code for the course in the 'Resources' area of the course. Check each tutorial for relevant downloads.

Practice

You will be required to practice the techniques explained and demonstrated in this course. Three Home Study sections are included and several Quizzes.

Research

You are encouraged to research online throughout the course to expand your knowledge.

MEARSURING YOUR PROGRESS

Home Study Assignments

These will help ensure you understand the techniques needed to complete various operations using Maven.

Quizzes

There are quizzes located in this course. If you are having difficulties viewing them, you will want to try a different device.

Review

Your rating: ★ ★ ★ ★ ★

When to Review

Please **Review** only when you feel ready. Udemy will prompt you to Review very early in the course. If you feel un-ready to review, it's perfectly normal to delay until you are ready. No pressure.

Rate or Review ?

The stars are a Rating and Comments make a Review. If you can't in good faith give this course a 5 star rating, no worries. But would you mind sending me (Bruce) a personal message instead and letting me know your concerns? This way I have a chance to improve course materials. And so do you. ☺

LET'S GET STARTED

You will want to click each tutorial and watch the corresponding video.

The provided Source code will provide you a starting point to follow along with the videos. There is also a completed version of the Source code for revision later on, if needed. Check the 'Resources' area for each video.

This course is constantly being added to so check back regularly.

Take the time that you need to thoroughly absorb the information. If you need to revisit a topic, feel free to do so.

This course can have a positive impact on your life. Allow it.

Happy Coding!! ☺
Bruce
